Rhythm

The trends for 2011 contain three main movements; Modern, Classic and Ethnic.

Each movement flows from a traditional point of view into one that goes beyond borders and explore new creativity. Playing with rhythm and crossing borders provides the home textile industry a lot of inspiration for fabric and pattern design.

Modern rhythm

Reflexive is a modern, luxurious and glamorous look. Urban is a clean and hyper modern city mood.

Classic rhythm

Romance is a baroque and enchanted story that reveal the traces of a rich past. Radical is an unusual and theatrical approach to old traditions.

Ethnic rhythm

Local reinvents rituals and goes back to hand crafted solutions. Global expresses a multi

cultural mix for outdoor living.
